

Climate Smart Communities Certification Report

SILVER CERTIFIED

This is the Climate Smart Communities Certification Report of Bedford, Town (Westchester). Bedford, Town (Westchester) is a silver certified Climate Smart Community.

Bedford, Town (Westchester) was certified on April 21, 2023 with 325 points earned from 37 completed actions. Listed below is information regarding Bedford, Town (Westchester)'s Climate Smart Communities efforts and materials associated with its certified actions.

The certification for Bedford, Town (Westchester) will expire on September 30, 2028.

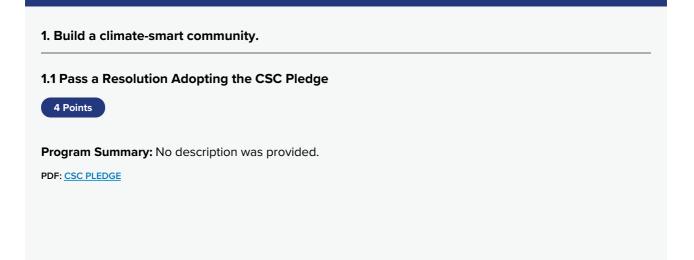

Contact Information

The designated Climate Smart Communities contact for Bedford, Town (Westchester) is:

Name:	ELLEN CALVES
Title/Position:	PROGRAM DIRECTOR / BEDFORD 2020, INC.
Address:	PO BOX 812 BEDFORD HILLS, NY 10507

Actions Implemented

Each approved action and supporting documentation for which Bedford, Town (Westchester) was approved for in 2023 appears below. Note: Standards for the actions below may have changed and the documentation listed may no longer satisfy requirements for that action. Additionally, points associated with actions prior to 2013 certifications may not be accurate.

PE1 Action: CSC Task Force

20 Points

8 Bronze Mandatory

Program Summary: We are applying for all 20 points available under this action. Attached in this application is the initial resolution "Task Force Resolution" calling for a CSC task force, the list of Bedford 2030 employe es and board members who are members of the task force (including the groups they represent, if different t han Bedford 2030) and records from two task force meetings held within the last year. The list of members is in the attached document titled "PE1_CSC_Task_Force_Members.pdf". The meeting minutes are in the docu ments titled "PE1_Action_CSC_Task_Force_January_27.pdf" and "PE1_Action_CSC_Task_Force_February_1 0.pdf" and the resolution is in the attached document titled "Task Force Resolution".

PDF: TASK FORCE RESOLUTION

PDF: <u>PE1_CSC_TASK_FORCE_MEMBERS.PDF</u> PDF: <u>PE1_ACTION_CSC_TASK_FORCE_FEBRUARY_10.PDF</u> PDF: <u>PE1_ACTION_CSC_TASK_FORCE_JANUARY_27.PDF</u>

PE1 Action: CSC Coordinator

10 Points

🔀 Bronze Mandatory

Program Summary: Mariah Okrongly is Bedford 2030's program director, and as such is the CSC Coordinato r. Mariah is actively coordinating Bedford's application to the CSC silver level certification, and is a core mem ber of Bedford 2030, which serves as the Town of Bedford's CSC task force. Evidence of this in the form of li nks to and screenshots from Bedford 2030's website is attached in the document titled "PE1_Action_CSC_C oordinator_Supporting_Documents". We have also included the original town resolution to name the progra m director of Bedford 2020 (now named Bedford 2030) as the CSC Coordinator (Document titled "PE1_CSC_ Coordinator_Town_Resolution.pdf). We have also included meeting notes from two CSC Task Force meeting s during which Mariah was present which have occurred within the last year (documents titled "PE1_Action_C SC_Task_Force_January_27.pdf" and "PE1_Action_CSC_Task_Force_February_10.pdf").

PDF: PE1_CSC COORDINATOR RESOLUTION.PDF PDF: PE1_ACTION_CSC_TASK_FORCE_FEBRUARY_10.PDF PDF: PE1_ACTION_CSC_TASK_FORCE_JANUARY_27.PDF PDF: PE1_ACTION_CSC_COORDINATOR_SUPPORTING_DOCUMENTS.PDF

PE1 Action: National/Regional Climate Program

Program Summary: Bedford is a participating member of NYSERDA's Clean Energy Communities and also S ustainable Westchester. Below you will see the town's active participation with Sustainable Westchester thro ugh a list of current members which includes Bedford. Also included is a link to NYSERDA's Clean Energy Co mmunities in scorecard - most recently Bedford has taken the lead in the state.

PDF: PE1_NATIONAL_REGIONAL_CLIMATE_PROGRAM_SUPPORTING_DOCUMENTS.PDF

2. Inventory emissions, set goals, and plan for climate action.

PE2 Action: Government Operations GHG Inventory

16 Points

👸 Bronze Priority 👸 Silver Priority

Program Summary: Following is a link to a public post on the Bedford 2030 website to Bedford's Governme nt Operations GHG Inventory Report published in October 2019. This public post also includes a link to a PD F of a data spreadsheet that clarifies municipal GHG measurements. See "Town of Bedford Municipal Energy " in the "Notes" section of this public post, using the URL below to access the data spreadsheet. (This data sp readsheet has also been uploaded as a supporting document for this action.) https://bedford2030.org/townof-bedford-climate-action-plan-progress-report/ Attached is a copy of a Bedford's government operations GH G inventory report that was published (i.e., released to the public) within five years - October 2019 and is labe led PE2_Action_Government_Operations_GHG_Inventory_BedfordNY_CAP 2019.pdf. The methodology is o n page 35 -36. The specific municipality GHG Inventory for Bedford begins on page 17 & 21 of the 2019 CAP. The 2020 update can be found using the public link in the summary PDF (PE2_Action_Government_Operati ons_GHG_Inventory.pdf) that can also be found on Bedford2030's website and on the town's website. The methodology is listed in the Appendix of the Oct 2019 progress report (35-36) Bedford 2020 Progress Repor t Methodology This Progress Report builds off of the baseline assessment completed by ICLEI in 2004 using its CACP tool. VHB calculated greenhouse gas (GHG) emissions reductions for the 2012 and 2017 Progress R eports. Calculations for 2017 data were completed by GHG accounting professionals per accepted industry st andard methods and assumptions used to track progress in quantifying GHG emissions. Data collection proc esses are consistent with methods used for the 2012 Progress Report. Data was provided by the Town of Be dford through various data sources (e.g., utility providers, waste haulers, and municipal departments). Where i nformation could not be obtained it was calculated by VHB using assumptions and emission factors from acc epted standard industry sources (e.g., the U.S. Environmental Protection Agency and U.S. Energy Information Administration). It is also important to note that this analysis is an update to measure the progress since the 2 004 Climate Action Plan (CAP) and is not a full GHG emissions inventory. The 2017 Progress Report relied on resources and data from the following sources: The Town of Bedford; Utility Providers; New York State Electri c and Gas Corporation (NYSEG) Con Edison (ConEd) The Town of Bedford Waste Consultant; Westchester C ounty Public Works; U.S. Environmental Protection Agency – 2016 eGrid Factors; U.S. Environmental Protecti on Agency – 2018 Emission Factors for Greenhouse Gas Inventories and Global Warming Potential factors; a nd U.S. Energy Information Administration - Energy Unit Calculations. At the time of the October 2019 Progre ss Report, the Town of Bedford Building stock did not have large refrigerant sources. In future inventories, if changes in the building stock warrant it, refrigerant sources will be included. At the time of the October 2019 Progress Report, the Town of Bedford did not have a landfill.

PDF: BEDFORD MUNICIPAL ENERGY.PDF

PDF: 202304_PE2_ACTION_GOVERNMENT_OPERATIONS_GHG_INVENTORY_SUMMARY.PDF

PE2 Action: Government Operations Climate Action Plan

16 Points

👸 Bronze Priority 👸 Silver Priority

Program Summary: Attached is Bedford 2020 CAP (published within 10 years) which includes a government GHG inventory and initiatives for reducing municipal GHG emissions towards government targets. The uploa ded town resolution and link on the summary PDF proves that the CAP was adopted by the local governmen t as well as being released to the public. Finally, for public outreach, meeting minutes as well as a public articl e on how the community members can get involved are also attached to show the community's access to rev iew the CAP. The Minutes - Town Board Minutes - 2020 - June16reg.pdf show that the town voted to include the Climate Action Plan as part of the town's comprehensive plan and also in the resolution includes shows t hat the town adopt the CAP2030, held 3 town hall sessions to review and discussion CAP2030 and receive community input and what the GHG reduction goals are. Municipal reduction target on page 14 of CAP. Pleas e use the following link to a public post on the Bedford 2030 website for Government GHG emissions/invent ory found in the Bedford Progress Report, published in 2019, as well as in an additional link to a PDF of Town of the Bedford Municipal Energy data sheet in the Notes section of this post. (The PDF of this data sheet is al so attached as supporting documentation for this action.) https://bedford2030.org/town-of-bedford-climate-a ction-plan-progress-report/ Data from the 2019 Bedford Progress Report was used as the basis for the Town of Bedford 2030 Climate Action Plan that was adopted in 2020. The Town of Bedford 2030 Climate Action P lan is available to the pubic on the homepage of the Bedford 2030 website: bedford2020.org (Scroll down to the bottom of the "Climate Action Areas 2030" section on the homepage.)

PE2 Action: Community Climate Action Plan

16 Points

👸 Bronze Priority 🛛 Silver Priority

Program Summary: Attached is Bedford 2020 CAP (published within 10 years) which includes a community GHG inventory and initiatives for reducing GHG emissions as a whole community while working towards com munity-wide targets. The uploaded town resolution and link on the summary PDF proves that the CAP was a dopted by the local government as well as being released to the public. Finally, for public outreach, meeting minutes as well as a public article on how the community members can get involved are also attached to sho w the community's access to review the CAP.

PDF: PE2_ACTION_COMMUNITY_CLIMATE_ACTION_PLAN_SUMMARY.PDF

PE3 Action: Government Building Energy Audits

12 Points

👸 Bronze Priority 👸 Silver Priority

Program Summary: The Town is submitting for 16 points and has proof that 85% (by square footage) of Bedf ord's municipal buildings have ASHRAE level I, II or III audits. Using the included excel table below, "2022_M unicipal_Buildings", the total building count is 14. We have not counted 3 of the buildings in the square foota ge percentage. Both 60 Haines Road and North St are seasonal pool houses that are not heated or cooled. T he third building is our water processing plant, listed on the spreadsheet as the Route 35 Water Plant. This b uildings' energy used is concentrated on water processing, not heating and cooling. This information can be f ound in column L in the spreadsheet. Calculating the percentage of buildings by the total square feet of the r emaining 11 buildings would be 44773/52386 which is 85%. See the Calculations Details in the summary doc ument. Three of the buildings' reports did not state what level of ASHRAE level they were. Using the attache d "ASHRAE and CEC Energy Study Level Comparison" document, we were able to figure out which level they would be. Included in the summary document are the specific locations in the reports for the qualifications n eeded for ASHRAE Level I.

PDF: PE3_ACTION_GOVERNMENT_BUILDING_ENERGY_AUDITS_74_MAIN_ST_ENERGY_AUDIT.PDF PDF: PE3_ACTION_GOVERNMENT_BUILDING_ENERGY_AUDITS_301_ADAMS_ST_ENERGY_ASSESSMENT.PDF PDF: PE3_ACTION_GOVERNMENT_BUILDING_ENERGY_AUDITS_307_BEDFORD_RD_ENERGY_ASSESSMENT.PDF PDF: PE3_ACTION_GOVERNMENT_BUILDING_ENERGY_AUDITS_321_BEDFORD_RD_ENERGY_ASSESSMENT.PDF PDF: PE3_ACTION_GOVERNMENT_BUILDING_ENERGY_AUDITS_425_CHERRY_ST_ENERGY_ASSESSMENT.PDF PDF: PE3_ACTION_GOVERNMENT_BUILDING_ENERGY_AUDITS_425_CHERRY_ST_ENERGY_ASSESSMENT.PDF

PE3 Action: Benchmarking - Municipal Buildings

Program Summary: Attached is the documentation of approval from NYSERDA that confirms completion of t he related Clean Energy Communities high-impact actions.

PDF: <u>PE3_ACTION_BENCHMARKING_MUNICIPAL_BUILDINGS_NYSERDA_ADVANCED_REPORTING_CONFIRMATION.PDF</u> PDF: <u>PE3_ACTION_BENCHMARKING_MUNICIPAL_BUILDINGS_NYSERDA_BENCHMARKING_CONFIRMATION.PDF</u> PDF: <u>PE3_ACTION_BENCHMARKING_MUNICIPAL_BUILDINGS_SUMMARY.PDF</u>

PE3 Action: Clean Energy Upgrades

Program Summary: Bedford completed the Clean Energy Upgrades Actions through the NYSERDA CEC pro gram for 10 points. The confirmation from NYSERDA is attached.

PDF: CLEANENERGYUPGRADES_BEDFORD 2030 MAIL - NOTIFICATION_ NYSERDA CLEAN ENERGY COMMUNITIES_TOWN OF BEDFORD CLEAN ENERGY UPGRADES.PDF

PE3 Action: Advanced Vehicles

2 Points

Program Summary: We are looking for 2 points for the "deployment of 1 light-duty vehicle". Attached in the document titled "PE3_AdvancedVehicles_Supporting_Documents" are photographs of the electric-powered Nissan Leaf that is operated by the Bedford Police Department. This meets the requirement of at least one a dvanced vehicle in the municipal fleet, and should be eligible for the two points available under this action.

WORD: <u>PE3_ADVANCEDVEHICLES_SUPPORTING_DOCUMENTS.DOCX</u>

PE3 Action: LED Street Lights

12 Points

Program Summary: We are seeking 12 points (the full point value) for the LED street light action. Attached in the document titled "PE3_LED_Street_Lights_Supporting_Documents" are both confirmations from NYSERD A CEC program for approval of cobra head and decorative light fixture LED street lights, as well as a link to th e NYSERDA Climate Smart Communities progress tracking website where Bedford is listed as having points f or both actions. Showing evidence of NYSERDA approval for both cobra head and decorative light fixtures sh ould qualify for all twelve points available under this action.

WORD: PE3_LED_STREET_LIGHTS_SUPPORTING_DOCUMENTS.DOCX

PE3 Action: Environmentally Preferable Purchasing Policy

3 Points

Program Summary: Attached is the Town of Bedford's Procurement Policy. On Page 8 of the document, the t own outlines its Green Purchasing Policy which gives priority to purchases that are environmentally-friendly.

PDF: PE3 PROCUREMENT AND PURCHASING POLICY- 2-19-2019.PDF

PE3 Action: Energy Code Enforcement Training

Program Summary: Town of Bedford completed energy code enforcement training and received credit for t hese points in the NYSERDA CEC program. Confirm from NYSERDA is attached.

PDF: ENERGYCODEENFORCEMENT_BEDFORD 2030 MAIL - NOTIFICATION_NYSERDA CLEAN ENERGY COMMUNITIES_TOWN OF BEDFORD_ENERGY CODE ENFORCEMENT TRAINING - LEADERSHIP ROUND.PDF

4. Shift to clean, renewable energy.

PE4 Action: Heat Pumps

12 Points

Program Summary: We are looking to achieve 9 points plus an additional 3 for the completion of the CEC N YSERDA Clean Heating & Cooling campaign. A brief description of the heat pump installation can be found in the summary doc which outlines the location, installation date, size, and specification or purchase documents . This information is taken from the attached "3rd Submission Variable Refrigerant Flow Product Data" which gives a brief overview of the installation details on page 2 and the size and specifications can be found on p age 6. In the summary document, on page 2, there are pictures of posted educational signage, public meetin g minutes which mentions a planned celebration as well as a public link to The Town of Bedford's website w hich states the new installation of the heat pump as well as the celebration. The system is currently in service as noted in the rental form that there is a new HVAC system - https://bedfordny.gov/wp-content/uploads/202 2/03/BHCH2022-All-Forms.pdf For the three additional points, attached is the email confirmation of the NYS ERDA Clean Heating and Cooling Demo.

PDF: PE4_ACTION_HEAT_PUMPS_3RDSUBMISSION_VARIABLE_REFRIGERANT_FLOW_PRODUCT_DATA.PDF PDF: PE4_ACTION_HEAT_PUMPS_MEETING_MINUTES.PDF PDF: PE4_ACTION_HEAT_PUMPS_NYSERDA_CLEAN_HEATING_AND_COOLING_DEMO_CONFIRMATION.PDF PDF: PE4_ACTION_HEAT_PUMPS_SUMMARY.PDF

5. Use climate-smart materials management.

PE5 Action: Reuse Programs

2 Points

Program Summary: Attached is the required documentation for both a medium scale program, and a large s cale program (in the document titled "PE5_Reuse_Program_Supporting_Materials") which should qualify for six points. The TIOLI shed is a medium scale program because it has limited hours of operation (listed above) , is only open during certain seasons, and is a permanent program. A TIOLI shed is the exact example used t o define medium scale programs. Supporting Information attached includes: Documentation confirming that t he program was active within the last two years. This takes the form of links to the facebook group for the pr ogram which has active users, and to the TIOLI website which posts hours and other helpful information.. Do cumentation outlining rules and regulations for use. This takes the form of a link to acceptable and non-acce ptable items, the location, and sign-up sheet. Any materials demonstrating outreach and education to the co mmunity regarding the program. This takes the form of screenshots of the mailing list for the program. The F acebook page also applies to this category. Screenshots of the Bedford 2030 recycling guide which mention s the TIOLI shed. The large scale program for which we have provided documentation is the Bedford Recycli ng Center. In the document mentioned above titled "PE5_Reuse_Program_Supporting_Materials" we have i ncluded Screenshots of the Bedford 2030 recycling guide which contains guidelines and hours of operation for the recycling center An informative flier about the recycling center A link to the recycling program page o n the town website

WORD: PE5_REUSE_PROGRAM_SUPPORTING_MATERIALS.DOCX

PE5 Action: Waste Reduction Education Campaign

2 Points

Program Summary: This application should meet the requirements for the two points available under this act ion. Attached documents referenced are included in the submitted document entitled, "PE5_Waste_Reductio n_Education_Campaign_Supporting_Documents". The Town of Bedford has begun a Curbside Compost pro gram aimed at reducing food waste by providing households with easy access to composting materials and a n easy way of storing that compost other than on their own properties. Funding for Curbside Compost comes from a three year grant given to Bedford by NY State in 2020, funding the program through 2023 (A link to t he program website is attached). Supporting documents include photos from events related to the program, educational and promotional posters, and screenshots of the town supervisor's letters promoting the program. The photos attached are from the Earth Day Festival and Rooted Solutions launch which included informa tion about the town's curbside composting program. A description of the event follows: Rooted Solutions ma de its debut at the B2030 Earth Day Festival on April 24th 2022, with more than 30 organizations talking to a pproximately 400 visitors about natural solutions to climate change involving trees, native plants, climate frie ndly yard care, curbside and at-home composting and sustainable food sources. Participants commented on the high engagement level of the crowd, which was more widespread and diverse than in previous years.

WORD: PE5_WASTE_REDUCTION_EDUCATION_CAMPAIGN_SUPPORTING_DOCUMENTS.DOCX

PE5 Action: Community Repair

4 Points

Program Summary: We are seeking 4 points for the Community Repair action. In the attached summary docu ment, there is information for two repair cafe's held in Bedford one on May 14th, 2022 and one on August 7th , 2021. Included for each repair cafe is the location, date, time, local government role, flyers for each event, p hotographs and sign-in sheets. These events were both held in the last five years.

PDF: <u>PE5_ACTION_COMMUNITY_REPAIR_5_14_22_TOWN_NEWSLETTER.PDF</u> PDF: <u>PE5_ACTION_COMMUNITY_REPAIR_SUMMARY.PDF</u>

PE5 Action: Compost Bins for Residents

2 Points

Program Summary: Attached is a document containing links to information on composting and the Bedford 2020 Community Compost Program. These links include information on the cost of buying a composting bin and provide a coupon for buying a large composting bin for one's yard. Additionally attached is the Bedford Community Compost Acceptable Items Guide.

WORD: PE5_COMPOST_BINS_FOR_RESIDENTS_SUPPORTING_DOCUMENTS.DOCX

PE5 Action: Residential Organic Waste Program

14 Points

Program Summary: We believe that we are eligible for all 22 points available under this action. Attached is a link to a website with Bedford's yard waste program which contains a drop off component as well as curbsid e pickup for bags of yard waste. Additionally included are links to several different food waste programs; one drop off compost program, and one curbside pick up program that began as a pilot program, but has now be en expanded community-wide. The links we have included contain information such as the kinds of materials accepted, sign-up details, and the logistics of the program that residents must understand to use it. Lastly, a l ink to a spreadsheet with calculations on compose tonnage dating back to 2017 is also included, along with a compost guide that educates participants on proper composting practices. All previously mentioned links a re in the document titled "PE5_Residential_Organic_Waste_Disposal_Program_Supporting_Documents". In the same document we have also included screenshots of our compost guide which outlines acceptable and unacceptable materials and best practices for composting.

PDF: PE5_RESIDENTIAL_ORGANIC_WASTE_DISPOSAL_PROGRAM_WRITE-UP.PDF

6. Implement climate-smart land use.

PE6 Action: NYStretch Energy Code

Program Summary: Attached is documentation of approval from NYSERDA for completion of the Clean Ener gy Communities NYStretch Energy Code high-impact action.

PDF: PE6_ACTION_NY_STRETCH_ENERGY_CODE_NYSTRETCH_NYSERDA_CONFIRMATION.PDF

PE6 Action: Alternative-fuel Infrastructure

18 Points

👸 Bronze Priority 👸 Silver Priority

Program Summary: We are seeking a total of 16 points - 14 points for 6 EV charging stations and an addition al 2 points because a number of the stations are public. Attached are two invoices for the installation of six el ectric vehicle charging stations. The first invoice from 12-20-17 contains documentation for the installation of a total of six charging stations across town and the second invoice (307 Bedford Road) contains documentati on for an additional one. Hours of operation and relationship to pricing is included with the first invoice for th e installation of the charging station at Bedford Village Memorial Park. Also attached is a copy of a NYSEG Bil I showing proof of use. Included is a photo document with current photos of all 6 charging stations. Below ar e screenshots of the six active chargers on Plugshare demonstrating that the chargers are currently active an d available to the public.

PDF: PE 6 CHARGE STATIONS (6) INVOICES 12-20-17.PDF PDF: PE 6 EV CHARGING STATION AND INSTALLATION - 307 BEDFORD ROAD- BEDFORD HILLS NY (6.11).PDF PDF: PE6 NYSEG BILLS.PDF PDF: PE6_ACTION_ALTERNATIVE_FUEL_INFRASTRUCTURE_SUMMARY.PDF PDF: PE6_ACTION_ALTERNATIVE_FUEL_INFASTRUCTURE_PHOTOS.PDF

PE6 Action: Access to Public Transit

5 Points

Program Summary: We are seeking 4 points for this action. We have several parking lots to service our Metr oNorth train station allowing community members to use public transportation to commute in Westchester to New York City. (1 point) There is a shuttle service called the Hart bus that provides transport from neighborin g communities that do not have a MetroNorth station to access the Katonah station in Bedford. The shuttle b us provides access for residents of Ridgefield, CT and Lewisboro, NY (both communities without train station s) to use the Katonah station. (3 points) The shuttle is part of a regional transit system and incorporates other communities (1 point). Both train stations currently have bike parking and through Clean Energy Community, Bedford is installing additional bike barking (with shelter) at the Bedford Hills & Katonah station. Additionally, with two additional Clean Energy Community grants we are installing a covered bus shelter with solar lightin g at the most used bus stop in Bedford. The location was chosen based on a study done by Westchester Co unty.

PDF: PE6_ACTION_ACCESSTOPUBLICTRANSIT.PDF

PE6 Action: Traffic Calming

3 Points

Program Summary: The Town of Bedford has implemented traffic calming measures at several locations in t own throughout the past several years after taking into consideration feedback from residents as to where i mprovements must be made. Two projects; the rapid flash beacon pedestrian actuated crossing on route 117, and the speed hump and raised crosswalk on the village green are examples of traffic calming measures tak en at an intersection. The addition of speed humps along Seminary Road, the conversion of the northern spu r of Guard Hill Road at Route 22 to a one way street, and the addition of sidewalk and a new crosswalk on C hurch st adjacent to Babbitt Road all combine to equal over a mile of road throughout Bedford where traffic c alming has been implemented. Screenshots from google earth showing the areas before and after the projec ts were completed are attached in the documents titled "PE6_Traffic_Calming_Supporting_Documents(1)", "PE6_Traffic_Calming_Supporting_Documents(2)", and PE6_Traffic_Calming_Supporting_Documents(3). Evi dence of community feedback is in the attached document titled "PE6_Traffic_Calming_Community_Input". This evidence includes a letter from the town supervisor inviting residents to a town board meeting to discus s the planned traffic calming measures on Cherry St, a resident petition that catalyzed the Seminary Rd traffic calming project, an email from a resident confirming that the crosswalk added to Church St was being used, and a letter to residents acknowledging their input into the project and adjusting plans accordingly. The plan for speed humps along seminary road following the petition from residents is also attached in the document t itled "PE6_Traffic_Calming_Seminary_Road_proposed_speed_humps.pdf". We have also attached a memo from the meetings where the speed humps on Cherry Street were discussed (titled "PE6_Traffic_Calming_C herry_Speed_Tables_4-18.pdf"). This should be eligible for all seven points under this action.

WORD: PE6_TRAFFIC_CALMING_COMMUNITY_INPUT.DOCX WORD: PE6_TRAFFIC_CALMING_SUPPORTING_DOCUMENTS(1).DOCX WORD: PE6_TRAFFIC_CALMING_SUPPORTING_DOCUMENTS(3).DOCX WORD: PE6_TRAFFIC_CALMING_SUPPORTING_DOCUMENTS(3).DOCX PDF: PE6_TRAFFIC_CALMING_CHERRY_SPEED_TABLES_4-18.PDF PDF: PE6_TRAFFIC_CALMING_SEMINARY_ROAD_PROPOSED_SPEED_HUMPS.PDF

7. Enhance community resilience to climate change.

PE7 Action: Cooling Centers

4 Points

Program Summary: We are seeking 4 points for the establishment and promotion of cooling centers in Bedf ord.

PDF: PE7 ACTION_ COOLING CENTERS (1).PDF

8. Support a green innovation economy.

PE8 Action: Farmers' Markets

3 Points

Program Summary: In the document titled "PE8_Farmer's_Market_Supporting_Documents" we have attach ed documentation of a program where the local government has made funds available for low income reside nts to use at local farmers markets. The screenshot included was taken from a town distributed email newsle tter. In the same attached document we have provided links to websites where the government has promote d local farmers markets by providing directions and hours of operation. Dates are within the past year, as evi denced by the link to a news article from July 2021. The John Jay Homestead Farmers Market which is prom oted by the Town of Bedford and included in the food stamp program is open on Saturdays from May to Oct ober every year, which is more than ten days per year. This should qualify for all three points available under this action.

WORD: PE8_FARMER'S_MARKET_SUPPORTING_DOCUMENTS.DOCX

PE8 Action: PACE Financing

Program Summary: Attached is the confirmation for the completion of the NYSERDA Clean Energy Communi ties PACE Financing high-impact action. Also attached is the current list of participating municipalities which i ncludes Bedford. Additionally, attached is the resolution that enacts a program to allow qualified property ow ners to receive financing from the Energy Improvement Corporation towards the installation of renewable en ergy systems and Bedford's C-PACE Financing Program. Also included is a notification of NYSERDA's approv al of Bedford's Clean Energy Communities Energize NY Finance documentation.

PDF: PE8 ENERGIZE NY OPEN C-PACE FINANCING PROGRAM.PDF

PDF: PE8_ACTION_PACE_FINANCING_SUMMARY.PDF

PDF: PE8 ACTION PACE FINANCING 2022 LIST OF CURRENT OPEN C-PACE MUNICIPALITIES.PDF

PE8 Action: Community Choice Aggregation

18 Points

Program Summary: Attached is a notification from NYSERDA approving the town's CCA High Impact Action submission. Also attached is a press release stating Bedford's designation as a Clean Energy Community, wh ich lists implementation of CCA as one of its four high impact actions. For the current contracts, attached is th e NYSEG contract and the just-ended ConEd contract. NYSEG, which covers the majority of the Town of Bed ford, was paused and re-launched mid-March. The ConEd contract ended on 6/30/22 and the town is curren tly soliciting bids for a November 1st restart. The Town of Bedford is submitting for 18 points, and census data from census.gov for confirmation of the population is attached.

PE8 Action: Community Campaigns

12 Points

Program Summary: We are seeking 12 points for this action because we have completed all 4 of the CEC Co mmunity Campaigns. Attached in the document titled

"PE8_Community_Campaigns_Supporting_Documents" are email confirmations of NYSERDA approval for th e completion of the Community Solar Community Campaign Demand Response Community Campaign, Clea n Heating and Cooling Community Electric Vehicles Community Campaign Also included in the documentati on are the dates of our 4 community campaigns.

WORD: PE8_COMMUNITY_CAMPAIGNS_SUPPORTING_DOCUMENTS.DOCX

9. Inform and inspire the public.

PE9 Action: Climate Change Education & Engagement

8 Points

👸 Bronze Priority 👸 Silver Priority

Program Summary: We are seeking all 8 points for this action. Bedford 2030 is the local government's com munity engagement strategy, producing community engagement and education materials, running public ev ents, and working with local businesses to implement programs that help residents get involved with climate change mitigation and adaptation efforts. In the attached document titled "Climate_Change_Education_and_ Engagement_Mitigation" is a collection of images and links that illustrate the goal, partners, audience, and m ethods of engagement for our climate mitigation efforts. In the attached document titled Climate_Change_Ed ucation_and_Engagement_Adaptation" are links and images that illustrate the goal, partners, audience, and m methods of engagement for our climate adaptation efforts. The document titled "Climate_Change_Education __and_Engagement_Supporting_Documents" contains links to information about two public events from the past year that have engaged and educated the community on these issues, as well as some links to the Bedf ord 2030 website, and some supervisors newsletters that contain information about different programs and events run by Bedford 2030 in pursuit of these goals. We have also attached the 2020 Climate Action plan (document titled "PE9_Climate_Change_Education_and_Engagement_CAP2030-r16-int") and the Bedford 20 30 Relaunch Report (document titled "PE9_Climate_Change_Education_and_Engagement_RelaunchReport 2020").

PE9 Action: Energy Reduction Campaign

5 Points

Program Summary: We are seeking 5 points for implementation of the Building Energy Coach program as an energy reduction campaign in Bedford. Attached is a summary document that includes links for both the Tow n of Bedford's website as well as Bedford2030's website, advertising Bob the Energy Coach and the Energy Coach Challenge. Included in the summary document are campaign results as well. Additionally, attached is a Town of Bedford Supervisor newsletter that markets Bob the Energy Coach who helps homeowners save e nergy and make a plan to reduce their personal emissions.

11. Innovation

Innovation: New Innovative Actions

3 Points

Program Summary: The Town of Bedford passed legislation and implemented the first goat grazing project i n the community to create a new pathway for tackling invasive species removal without the use of gas power ed lawn equipment or chemicals. Attached is a write up of the law passage and project implementation. No o ther CSC action is focused the specific tackling of invasive species. Bedford is a pioneer in drafting the legisl ation that accommodated goat crazing as a solution to invasive species and can be an example to other com munities focused on reduction of chemical and gas powered equipment use in their own municipalities. This not only has an environmental impact in the economy but paves the way and sets an example within Bedford and the state of New York that there are viable alternatives to chemicals and lawn equipment that are natural and support local farmers.

12. Performance

Performance: Reduce GHGs from Government Facilities

25 Points

Program Summary: We are seeking 25 points for this action for reducing government GHG emissions from f acilities/stationary energy by 21% between 2004 and 2017. Attached is the Town of Bedford's October 2019 CAP Progress Report on its greenhouse gas emissions reductions. The inventory covers both municipal and community greenhouse gas emissions and documents a reduction in emissions from municipal energy usag e. See pages 14-17 of this report for government emissions reduction related to stationary energy. Also attac hed is a data spreadsheet that clarifies municipal GHG measurements in the Town of Bedford's 2019 report.
